Reason there are fewer than three comparable properties

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

An exhaustive market analysis of Doveton and surrounding parameters was conducted to determine the estimated selling price for 1/8 Crimson Drive; however, only two qualifying comparable properties could be identified that strictly satisfy the statutory criteria mandated by Consumer Affairs Victoria. While a broader search yields additional recent sales, these properties inherently fail the comparability threshold due to material discrepancies in land size, structural typology, overall condition, or because they fall outside the strict six-month temporal limit and permitted geographical radius. Utilizing cross-suburb data or properties with fundamentally different accommodation attributes introduces disparate market drivers that invalidate the comparison and risk misleading prospective purchasers. Consequently, artificially forcing a third, non-comparable property onto the Statement of Information merely to fulfill a quota would

misrepresent the property's true market value, thereby contravening the primary legislative objective of pricing transparency. Therefore, to ensure absolute accuracy and strict adherence to pricing regulations, this assessment relies exclusively on the two genuinely comparable properties identified within the required parameters.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
