The Residential Tenancies Act 1986

The *Residential Tenancies Act 1986*, administered by the New Zealand Government's Ministry of Business, Innovation and Employment, outlines the rights and responsibilities of both landlords and tenants who are entering into a tenancy on a property in New Zealand.

The Act also details the conditions whereby you can end a tenancy and the processes to do so.

Did you know that the Ministry of Business, Innovation and Employment receives around 50,000 Tenancy Tribunal applications each year?

The best way to prevent problems during your tenancy is by keeping in regular contact with your Property Manager and addressing any issues as soon as they arise.

It is also important for you to understand and follow your legal rights and responsibilities as a tenant under the *Residential Tenancies Act 1986*.

The Act states that as a tenant you must:

► Pay the rent

It is your legal responsibility to pay your rent on time and as per the time-frames set in your Tenancy Agreement. Rent should always be paid before the due date. If you have problems with your rent payments, or are aware of an upcoming issue, it is important that you notify your Property Manager immediately.

Even if you're unhappy about something to do with the property, you still have to ensure you are always paying the rent on time - failure to do so does not reflect well upon you in a Tenancy Tribunal situation and can affect your future in the tenancy.

► Keep the property reasonably clean

As a tenant you are legally required to keep the property in a 'reasonably clean' condition. Staying on top of any cleaning and maintenance will ensure a good relationship with your Property Manager and an easier vacating process at the end of your tenancy.

► Notify the Property Manager if something needs to be fixed

If something breaks down or goes wrong you need to tell your Property Manager immediately and also put it in writing, to create a permanent record of the notification. If your repairs can be classed as an emergency, see the 'Emergency repairs' section in this guide under 'General Information'.

General Information

Further information to assist you throughout your tenancy

► Routine property inspections

Routine property inspections generally occur every three months, or not less than four times per year. These inspections are a requirement under most landlord insurance policies. Your Property Manager is required to provide a minimum of 48 hours' notice, in writing, prior to any inspection.

Due to time constraints it is not always possible to alter an inspection time, and your Property Manager is not obligated to do so. You are not required to be present for any inspection, however you are most welcome to if you wish to discuss any issues around your tenancy.

► Insurance

Although the landlord is responsible for insurance relating to the property itself, they are not responsible for insurance of the tenant's possessions. If your belongings become damaged or destroyed by an event affecting the owner's property (such as a fire, storm damage, flooding or power outages) your possessions are not insured by the landlord.

For example:

- An electrical fault in the building starts a fire and the property is destroyed. Your possessions **will not** be covered by the landlord's insurance.
- You are away on holiday and an electrical fault causes a power outage in the building and you return home to find your fridge/freezer goods spoilt. The landlord's insurance **will not** cover your fridge/freezer goods.
- A storm blows a tree onto the house and your belongings are damaged. The landlord's insurance **will not** cover your possessions.

Therefore, we recommend all tenants take out their own contents insurance, as well as a rental insurance policy (or liability insurance), that will cover you for any possible damage you or one of your guests may cause to the property.

► Utilities

It is the tenant's responsibility to ensure they have set up their utilities accounts (such as gas, phone, power and internet). These must be under the tenant's own name. Remember to close these accounts when vacating.

► Painting, decorating and renovating

If you wish to make any changes to the property, including, but not limited to, decoration, painting or renovation, you must obtain written permission from the Property Manager before any work commences.

► Occupancy

Only the people listed on the tenancy agreement are permitted to reside at the property on a permanent basis. If a tenant on the agreement wishes to move out you must notify the Property Manager straight away.

► Water rates and other outgoings

The process around water rates will vary depending on where you live in New Zealand, however, under the *Residential Tenancies Act 1986*, the tenant is responsible for all metered use based on consumption.

Tenants can also be charged for waste water where the wastewater charge is exclusively attributable to the tenant's use.

A landlord is responsible for outgoings which are incurred regardless of whether the premises are occupied or not, for example any fixed charges.

If the property is part of a unit title development and the body corporate rules regulate the supply of water amongst the units, then your Property Manager should point this out as well as supply you with a copy of the relevant body corporate rules.

A tenant who fails to pay their water charges will be in breach of their agreement (unless their agreement states that water rates are included in the rent) and a Property Manager can issue a 14 day notice to remedy the breach. This may result in a Tenancy Tribunal application against your name.

► Car parking

Tenants should only park in their designated areas that form part of their tenancy. Please ensure that cars are not parked on grass verges or lawns and do not block shared driveways. Cars that are not warranted, registered or running are not permitted to be parked on the premises.

► Pets and animals

Pets may only be kept at the property if you have first received written permission from your Property Manager or it is allowed for by way of a clause in your Tenancy Agreement. Failure to do so will put you in breach of your Tenancy Agreement and could affect your ability to continue living in the property.

► Fireplaces

If the property you are renting has a fireplace this cannot be used unless you have been given written permission from your Property Manager. A quick email can confirm whether you can use it if you are unsure. Some fireplaces are ornamental and may have their flue/chimney blocked and using it could cause a house fire or property damage.

► Picture hooks

If you wish to install any new picture hooks you will need to get written permission from your Property Manager. Picture hooks can cause damage to the walls so if in doubt, always check with your Property Manager first. (Even Blu-Tack can leave an oily residue on a wall which does not disappear with repainting.)

► Smoke Alarms

As of July 2016, all rental properties will be required to have working smoke alarms fitted to help ensure the safety of our tenants across NZ. Under the changes to the legislation, it will be the duty of tenants to replace any smoke alarm batteries where a standard 9-volt battery alarm is in place.

Overtime as these alarms are replaced with the long-life photoelectric variety, a tenants need to replace batteries will naturally reduce as these types of alarms generally have a 10 year life (roughly) without the need for new batteries during this time.

► Damage to the premises

It is the tenant's responsibility to care for the exterior and interior of the residence, including the gardens if this is part of your Tenancy Agreement. You are required to contact your Property Manager straight away if you become aware of any damage that has been caused to the property.

► Fair wear and tear

Fair wear and tear means the deterioration that occurs over time with the use of the property even though the property receives reasonable care and maintenance.

A tenant is only liable for any damage caused by negligence, being irresponsible or any intentional actions that cause damage to the premises. The examples in the following table will help illustrate the differences between the two.

Common examples of wear and tear

- Faded curtains or frayed cords.
- Furniture indentations and traffic marks on carpets.
- Scuffed wooden floors.
- Faded or cracked paint.
- Loose hinges or handles on doors or windows and worn sliding tracks.
- Cracks in the walls from building movement.
- Water stains on the carpet from rain leaking through the roof or bad plumbing.

Damage for which you may be liable

- Missing, damaged or torn curtains - either caused by the tenant or their pet/s.
- Stains or burn marks on carpets.
- Badly scratched or gouged wooden floors.
- Unapproved paint jobs or large areas of damage e.g. from posters being ripped off walls.
- Broken window glass e.g. from a flatmate or child hitting a ball at the window.
- Holes in the walls left by tenants removing picture hooks or shelves they have installed.
- Water stains on the carpet caused by overflowing bath or indoor pot plants.

► **Emergency repairs**

When general repairs are required at the property you contact your Property Manager, in writing, to notify them. However in cases where these repairs, or lack of repair, could cause injury to the tenant or damage to the property then they could be classed as 'emergency repairs'.

If such situations arise you need to notify your Property Manager, or the property management office for which they work, immediately (even if this is after hours or on a weekend/public holiday).

Emergency repair examples may include (but are not limited to):

- ▶ Water pipes have broken or burst.
- ▶ Blocked or broken toilet (if a second toilet is not available).
- ▶ Serious roof leak.
- ▶ Gas leak.
- ▶ Dangerous electrical fault (e.g. loose power point or live wire).
- ▶ Flooding / rain water inundation.
- ▶ Serious storm or impact damage (e.g. car impact into garage).
- ▶ Failure or breakdown of the gas, electricity or water supply to the premises.
- ▶ Failure or breakdown of an essential service or appliance required for water or cooking.
- ▶ Hot water service failure.

► **Giving notice / vacating premises**

If you wish to vacate your property you are required by law to notify your Property Manager in writing and provide a minimum of 21' days notice. You will be liable for rent up to and including the 21st day of your notice period.

Notice is effective from the date it is received by the office (same day with emails sent before 5pm; allow four working days for anything sent in the post).

Note: For tenants on fixed term tenancies, the above does not apply as your agreement cannot be terminated by notice.

► **Keys**

If keys are not returned at the end of any tenancy, the tenant will be responsible for the cost of replacement locks and this can be deducted from the bond. No further keys are to be cut by the tenant without prior written consent from your Property Manager. This process is in place for your protection and security and that of any subsequent occupiers.

► Rent reviews and increases

For most tenancies, the rent cannot be increased within 180 days from the beginning of the tenancy, or within 180 days from the last rent increase.

Your Property Manager must give at least 60 days' written notice to increase the rent. There is no limit as to how much the rent may be increased, providing that any increase is not excessively above 'market rate'.

Rent can only be increased during a fixed term tenancy where provision for this is written into the tenancy agreement and the same time frames apply.

► Rent in advance

This is a concept that can be misleading due to its title and often creates confusion for tenants, especially at the end of any lease. 'Rent in advance' doesn't mean that you have paid a lump sum of rent and therefore do not need to pay rent in your last week(s) of a tenancy. It refers to the concept and obligation of a tenant to pay their rent before it comes due.

In the example below we have a lease that began on Wednesday 4th September and 'one week's rent in advance' has been paid. This simply means that the tenant has paid the first week's rent for the period ending on Tuesday 10th September (the area in red).

To ensure the rent is received by the Property Manager before it is due, the next payment would be due to come out of the tenants account on Tuesday 10th September to ensure it reaches the Property Manager by the 11th. This then covers the tenant up until and including Tuesday 17th (the area in green).

If the tenant had been in the property for some time with this weekly payment system and had handed in their notice to leave, with the final day being Saturday 21st, they wouldn't be a week in advance or not needing to pay for the final week. They would still owe four day's rent (the area in blue) and this is where often the confusion can arise.

Another way of looking at this is if you were to go into a dairy to buy a can of soft drink then drink the contents before paying for it - you'd probably find the dairy owner wouldn't be too pleased. You always pay for something first, then consume it afterwards. Paying 'rent in advance' is exactly the same - you purchase the time period in advance and then consume the time period by living in the property - or in other words: 'pay before you stay'.

Routine maintenance

As a tenant you are responsible for the general upkeep and maintenance of the property - including the following:

► **Grounds and garden**

Refer back to your signed Tenancy Agreement or Property Manager for clarification on this if you are unsure. However, unless you have been advised that this responsibility is not yours it is safe to assume that as the tenant, you are responsible for maintaining the grounds, lawns and gardens so that these are kept in a reasonably clean and tidy condition at all times.

► **Guttering**

Gutters should be cleaned out at least once a year to remove leaves and debris. If you see wet patches or a concentration of mould on the walls or ceiling close to the gutters then this may indicate they are blocked and you must advise your Property Manager immediately.

► **Mould and mildew**

Mould and mildew are invariably present in many New Zealand households and removing and containing it is the tenant's responsibility. There are three conditions that have to be present for the growth of mould:

- ▶ Mould spores.
- ▶ A surface with sufficient food source to maintain life.
- ▶ A source of moisture.

To prevent moisture build-up from inside the home you need to have a balance between adequate heating and ventilation. The interior temperature should ideally be maintained between about 18 to 22 degrees for comfort. Ventilate your home by leaving windows open a centimetre or two, depending on the outside air movement and the amount of cross ventilation.

The general rule is, ventilate little and often rather than in short vigorous bursts. Window glass is a good guide if it starts to show more than the minimum of condensation, the windows should be open a little further.

Preventing mould:

- ▶ Open the windows and doors when you are home.
- ▶ Open windows and use extractor fans for steam to escape from cooking and bathing.
- ▶ Vent clothes dryers directly outside.
- ▶ Open curtains early in the morning and close them when the sun goes down.
- ▶ Put a cupboard heater in wardrobes if mildew is likely to occur.
- ▶ Do not put damp clothes or shoes in a wardrobe.
- ▶ Keep lids on pots when cooking.
- ▶ Wipe condensation off walls and windows when it happens.
- ▶ Hang washing outside to dry when possible.
- ▶ Use electric heaters rather than gas (gas heaters expel water as the gas burns).

Removing mould:

- ▶ To protect your health and that of your family/ flatmates remove mould as soon as it appears. You can use diluted household bleach (one part bleach mixed with three parts water), or a less abrasive cleaner like cider vinegar.
- ▶ Use a sponge or cloth when washing off mould and rinse it often to reduce the risk of it spreading.

► **Pot plants**

Please keep pot plants outside where possible. If they are to be put inside, please check with your Property Manager first, preferably in writing, to ensure you do not breach your Tenancy Agreement. Pot plants placed on hard surfaces may leave a circular indent, stain or damage and pot plants placed on carpet areas run the risk of rotting or damaging the carpet underneath.

► **Pest control / infestations**

If you have pest infestation problems, you should check if there are cleanliness issues to address that may be causing the problem. If the cause does not appear to be related to cleanliness you could discuss the problem with your Property Manager as soon as possible to determine if eradication or fumigation is necessary.

Tenants have an obligation to keep the premises reasonably clean and tidy. Infestations that can be attributed to a lack of cleanliness may be your responsibility to remedy. In these cases your Property Manager could seek an order from the Tenancy Tribunal for the fumigation work to be done and for the tenant to be charged.

Ensuring your property is clean will do a lot to keep the rats and mice away. Also make sure there is no food source or somewhere for them to nest - steel wool is good for blocking up any mouse holes you may find.

Your safety - being aware

The highest priority must always be for your safety, the safety of your children, other occupants and visitors. For this reason we ask that you please be aware of your surroundings and notify us right away if you have any concerns.

Some things to be aware of include:

- ▶ Exposed wiring, faulty power points and switches.
- ▶ Gas smell or odour.
- ▶ Damage to paving and pathways that could cause someone to trip and fall.
- ▶ Suspicious or dangerous plants in the garden that are poisonous/toxic or that you may be allergic to.
- ▶ Bee or wasp nests.
- ▶ Loose or rotten floorboards.
- ▶ If you need to clean a property with high ceilings or light fittings that are hard to reach, please ensure you do this safely, or make suitable arrangements to have this done.
- ▶ Loose balcony railings, steps or decking woodwork.
- ▶ Loose or faulty locks, in particular any entry doors and screen doors.
- ▶ Broken or cracked windows and any broken or loose window locks.

Moving out and the bond refund process

When vacating the premises it is our goal to assist you in securing your bond refund.

Your Property Manager will need to inspect the property, referencing the initial and ongoing property condition reports which determine whether any further action will need to be taken. This is done by comparing the condition of the property at the start of the tenancy and at the end of the tenancy.

▶ Final inspection and outstanding balances

At the end of the tenancy and once tenants have vacated, the Property Manager will go through the property and use the property inspection report to check that nothing is damaged or broken. (Remember that some general wear and tear is to be expected but intentional or careless damage is not.)

Some or all of the bond can be claimed for anything needing to be rectified by the tenant - relating to the tenancy, such as unpaid rent, damage to the property, missing items and cleaning or gardening maintenance.

Outside the property

► Lawns

Freshly mowed and edges trimmed (best done right before your vacate date).

► Gardens

Remove any weeds, rubbish and built up leaves.

► Rubbish

Remove any rubbish or items that have been placed on or around the property. Be sure to check behind sheds, under shrubs and trees and under the house (this includes lawn clippings and compost left).

Check and clean carport and garage floors,

paths and driveway. If you have used a barbecue, check for any grease spots and spillages.

► Oil spillage

Sweep paths and paving areas (best done right before vacate date).

► Cigarette butts

Please pick up and dispose of any cigarette butts lying around the property.

Some or all of the bond can be claimed for anything left undone by the tenant in relation to the tenancy, such as unpaid rent, damage to the property, items missing, cleaning or gardening.

► Cleaning

If your Property Manager does not provide you with any specific guidelines around what is expected of your final clean - ask them as they may have an office policy you should adhere to. Finding out this information in advance will help you save time, stress and money. Generally, you should expect to do the following as a minimum:

Inside the Property

► Walls

Clean off any dirty, scuff marks, finger or food marks.

► Ceilings

Remove any cobwebs and fly spots.

► Ceiling mould

Clean off mould, particularly in wet areas and sometimes in bedrooms.

► Light fittings

Clean off dust and remove any dead insects. Check all bulbs are working and replace any that don't work.

► Ceiling fans

Wipe fan blades and fittings to remove dust.

► Skirting boards

Wipe down with a damp cloth to remove all dust.

► Doorways/doors

Wipe off finger marks and any ther removable marks.

► Windows

Clean inside and out, including sills and runners to removw dust build up and any dead insects. A vacuum cleaner and paint brush can do wonders here.

► Stoves

Clean stove top, control display, knobs, any pull out or in-built drip trays, griller racks, oven racks, trays and inserts, oven bottom, roof and walls.

► Kitchen rangehood

Clean pull out filters and framework.

► Bathroom

Clean sink, mirror, cabinet, vanity unit and drawers, shower, screen doors, bath, wall tiles and ceiling vents. Please ensure both the sink and the bath have plugs available.

► Toilet

Clean seat, bowl, and outside around the base.

► Laundry

Clean both the inside and outside of the tub, and underneath. Please ensure a plug is present.

► Heat pumps

Clean front vents and filters.

► Cupboards/drawers

Clean/wash inside and out. Doors and door frames both front and back should be clean.

► Curtains

Wash any washable curtains or netting (check with your Property Manager first to make sure they are washable to ensure you do not damage them).

► Blinds

If there are Venetian blinds, clean off the blind slats. Wipe downany other type of blinds.

► Floors

Mop/wash all floors ensuring corners and hard to get areas are also cleaned.

► Refunding the bond

When the inspection has been completed, and providing everything is in order, the bond refund form is to be filled out and signed by both tenant and Property Manager. It is then sent to the Ministry of Business, Innovation and Employment where the signatures are checked against the ones on the bond lodgement form. If one signature is different or missing, the Ministry will contact the parties for confirmation that the claim is in order before paying the refund.

Refunds are made by direct credit and New Zealand bank account numbers must be supplied on the bond refund form. Please note that bond refunds usually take up to three working days to process.

Bond money to be refunded can also be transferred to a new tenancy. Please note that bond transfers usually take up to 10 working days to process.

► If a refund amount is not agreed

If the tenant and the Property Manager cannot agree on the amount or costs that should be taken out of the bond, then either the tenant or the Property Manager (or both) can make an application to the Tenancy Tribunal. (There is an application fee of \$20.44 for mediation).

The application will then be given to a mediator, who will contact the parties involved and set up a time for a mediation, which may be by phone or in person. Both the Property Manager and tenant will be able to discuss the claim being made on the bond and, with the mediator's help, may be able to reach a mutually agreeable outcome. The mediator will then write an order as to how the bond is to be paid out. This order is binding as a court order. If no settlement is reached in mediation, the application will be set down for a hearing in the Tenancy Tribunal.

► Bond transfers

A completed and signed bond transfer form can be used to transfer the bond money from an old tenancy to a new one. The form must be signed by both the old and new Property Managers. The new Property Manager should then send the completed form to the Ministry of Business, Innovation and Employment. Please note that bond transfers usually take up to 10 working days to process.

If the old bond amount is more than the new bond, the Ministry sends the tenant a refund (by direct credit) for the extra money. If the new bond amount is more than the old bond, then the tenant gives the new landlord the extra money to make up the balance. The bond transfer form and a cheque for the balance must then be sent to the Ministry of Business, Innovation and Employment within 23 working days of the new tenancy starting.

► Important things to note around bond refunds

- A Property Manager does not have to release any of the bond before the tenancy ends in order for there to be sufficient bond for the next rental property (the same goes for any bond transfers). There are companies out there such as 'MoveSmart' who will help provide bridging funds for a new property while you are waiting on your current bond to be refunded.
- There is no required time-frame around how long after a tenancy ends in which a bond should be refunded, however the time-frame should be reasonable and if there are any delays these should only be due to outstanding invoices or repairs and damages.
- Although it is recommended, the tenants do not have to be present when the final inspection is carried out. The Property Manager has the right to complete the inspection on their own.
- Failure to hand back all the keys for a property can delay bond refunds or result in charges being deducted for lock and key replacements. Please ensure that all keys are accounted for at the end of the tenancy.

Tips for a successful tenancy

As a tenant there are a few things you can do during your tenancy to ensure that renting with Ray White is an easy process.

- ▶ Communicate with your Property Manager. Let them know if a rent payment is going to be late, damage has occurred or something isn't working. Full communication and disclosure will help your tenancy run smoothly.
- ▶ Photos are a great way to record the condition of the property when you first move in. Take pictures (that are date stamped) of the property, especially any areas that may be damaged or unclean.
- ▶ Keep a copy of the Tenancy Agreement, initial inspection report, rent receipts, bond lodgement form as well as any letters or emails received in a designated folder or file in case you need to refer to it at a later date.
- ▶ Never stop paying your rent, even if there are issues with your tenancy. Failure to pay rent can affect chances of success in any Tenancy Tribunal case and will not speed up repairs or solve issues.
- ▶ Comply with the terms of your Tenancy Agreement.

- In particular, never make any alterations, keep a pet or let other people move in without seeking written permission from the Property Manager first.
- ▶ If the property has a pool or garden make sure you are very clear about the expectations or tenancy conditions around who is responsible for ongoing maintenance.
- ▶ If the end of the tenancy is approaching and you wish to extend the current agreement, please contact your Property Manager as soon as possible to advise them of your interest.

► **Drains**

Pour a small amount of bleach down the sink to bring drains up nice and bright.

► **Doors**

A damp cloth is normally sufficient to clean doors, however if they are heavily marked use a detergent solution. Do not use a scouring pad.

► **Eaves**

Use a garden hose and a stiff broom to remove cobwebs, dirt and dust.

► **Flies**

Keep crushed mint on the kitchen bench to deter flies from entering the kitchen, or leave some bay leaves on your windowsills. Mint also deters fleas.

► **Grouting**

For coloured grouting use Epsom salts and a soft brush to clean off residue. For white grouting use bleach with a soft brush to remove residue.

► **Guttering**

Gutters should be cleaned out regularly, especially prior to winter to avoid damage.

► **Hairspray**

To remove hairspray marks from mirrors, rub with a soft cloth with methylated spirits.

► **Insects and pests**

Sprinkle Borax powder around skirting boards or appliances to repel unwanted guests. Warning: Borax can be toxic to children and pets so use with caution.

► **Kitty litter**

Good for soaking up engine oil from driveways

► **Labels**

Sticky labels can be removed by rubbing with Eucalyptus, tea tree oil, acetone or Brasso.

► **Laminex**

Most stains and marks can be removed by rubbing with toothpaste on a soft cloth.

► **Mirrors**

To prevent bathroom mirrors from steaming up, rub the mirror with a cloth dipped in glycerine and polish off with a soft cloth.

► **Oil on concrete**

Mix six parts of kerosene to one part detergent. Leave on the area for approximately five minutes then hose off.

► **Oven**

A damp cloth dipped in baking soda will remove grease and stains from the glass. To clean the oven, warm for

15 minutes, turn off and place full strength ammonia in a saucer on the top shelf and a pan of boiling water on the bottom shelf. Leave overnight with the door closed. The next morning open the door for 30 minutes (avoid the fumes) and wash off grease with detergent and hot water. Orange peel heated in the oven will remove any lingering smells. Cloudy ammonia is good for use on oven racks, trays and rangehood filters. Simply soak overnight and wipe clean. Line griller tray and under elements on electric cook-tops with aluminium foil to catch food scraps and drips and remove and replace it when dirty.

► **Picture hooks**

Contact your Property Manager before using any hooks at all.

► **Quarry tiles**

If glazed, wipe with kerosene on a soft dry cloth. If unglazed, mop with an equal mix of linseed oil and turpentine.

► **Rubber stains**

Rubber stains can be removed from kitchen floors with tea tree oil.

► **Rust**

To remove rust from sinks and wash-tubs, cut a lemon in half, dip the raw edge in salt and rub over the rusty area. Rinse with cold water. Alternatively, rub vinegar on a cloth and clean the area, then rinse with cold water.

► **Sand**

Sand is good for absorbing spills and oils on outside areas.

► **Toilets**

To clean stains from the toilet bowl, squirt with household bleach and leave overnight. The lid should be removed regularly to avoid build up under the seat. Remove the lid by loosening the two wing nuts at the back of the bowl and slide off.

► **Unknown stains**

For unknown stains the safest ingredient to use is Eucalyptus. Just dab Eucalyptus on the affected area.

► **Vaseline**

Vaseline is good for use on door hinges to stop doors squeaking.

► **Walls**

Walls should be washed down with warm soapy water and not spot cleaned. A new or clean squeeze mop good to clean walls with.

► **Windows**

To clean windows add ½ cup of methylated spirits to a bucket of water.

Thank you

This Tenant Information Guide has been developed to help make your tenancy easier and should be used as a reference only. The responsibility still lies with the tenant (leaseholder) to ensure they keep copies of all relevant lease documents and that they are aware of their obligations that they have signed upon with their specific Ray White Office and Property Manager.

If you have any questions or concerns relating to your lease or the property that you are leasing it is always best to contact your property manager directly.

A great source of free and impartial tenancy advice is The Tenancy Services website, www.tenancy.govt.nz, where you can learn more about anything tenancy related. They also have a free Tenancy Services helpline you can call on 0800 836 262.

Ray White New Zealand would like to thank the members throughout our network who have helped provide information and feedback in developing this document.
