Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

In preparing the Statement of Information for the above-mentioned property, I was unable to identify three comparable properties that met the relevant criteria within the required timeframe. While there have been a number of properties sold within the relevant area, there are no recent sales that provide a meaningful direct comparison to the subject property due to the difference in land size. The subject property is positioned on a smaller landholding than the available comparable sales, making direct comparison less meaningful and potentially not reflective of the property's current market value. As a result, the Statement of Information includes 0 recent comparable sale(s) that were considered the most relevant available comparisons based on the available sales data and the characteristics of the subject property. This approach complies with the intention of providing a fair and accurate market context based on the most relevant available data while taking into consideration the smaller land size of the subject property in comparison to the available

comparable sales.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
