Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

A comprehensive search and comparative analysis of recent property transactions was conducted across Endeavour Hills within statutory guidelines (2-kilometre radius, 6-month sales window). As Endeavour Hills is an established, fully developed residential suburb, vacant residential allotments are exceptionally rare, resulting in near-zero localized land turnover. A search of public sales records identified only one directly comparable vacant land allotment sold within the statutory area and timeframe. All other recent property transactions in the local area consist of fully established detached houses or townhouses, which do not reflect a direct land-value benchmark without speculative construction adjustments. Consequently, the estate agent reasonably believes that fewer than three comparable vacant land properties were sold within two kilometres in the preceding six months. The estimated selling price has been established using the single available vacant land comparable alongside broader regional land rate trends and localized buyer

demand for infill building sites.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
