Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

In preparing the Property Price Statement for the above-mentioned property, I was unable to identify three comparable properties that met the relevant criteria within the required timeframe. Due to the lack of sold properties of a similar age, design, configuration, location and unique features within the immediate area, there is a limited number of directly comparable sales available within the past six months, which is the guideline timeframe for comparable sales. The subject property possesses characteristics that make direct comparison to differently configured homes in the area less meaningful. The home is a newly built duplex that is larger in size than most other duplex's in the area. the Statement of Information includes 2 recent comparable sale(s) that provide the most relevant available indication of the current market. This approach reflects the limited availability of directly comparable sales while providing a fair and accurate market context based on the most relevant available data.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
