Comparable property sales

These are the three most comparable properties to the property for sale that were sold **within two kilometres** of the property for sale **in the last six months**.

If there were fewer than three, but one or two, comparable properties, these must be included below.

These properties were used to help determine the estimated selling price.

Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

Fewer than three comparable properties have been included on the Statement of Information as a diligent search of the immediate area revealed only one property of similar size, standard, and location sold within the statutory timeframe. An additional local sale located significantly below the market range was intentionally excluded because it did not meet true comparability criteria (due to factors such as inferior condition, atypical property constraints, or non-standard sale terms) and would have distorted the true market valuation. Property I am refereeing are 2/7 hay street & 4/5 Hay Street Box hill South.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
