Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

The comparable sales available during this period have predominantly comprised 4-bedroom homes in varying states of renovation, none of which are considered sufficiently similar in accommodation scale to serve as meaningful references for a home of this size. The single comparable nominated — a mostly unrenovated 5-bedroom home situated adjacent to a school — represents the closest available parallel in terms of bedroom count and presentation, and has been selected on that basis.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
