Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

There are no suitable comparable properties for 3 Yuille Street, Melton. I have carefully looked at properties that have sold within the last six months, but I have not found anything that I believe is a close enough comparison to this property.

The property is quite unique, mainly because it sits on approximately half an acre and is located in a tightly held pocket where properties of this size do not come up for sale very often. Most of the properties that have sold recently are on smaller blocks and do not offer the same level of space.

Another major difference is the separate office/additional bedroom and toilet area, which is separate from the main home. This provides extra flexibility and is something that is not commonly found in other properties in the area.

Because of these differences, I believe the property needs to be considered on its own merits rather than directly compared to standard residential sales. The large land size, location and additional separate space all make this a unique property with very limited recent sales to compare it to.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
