Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

Standard residential market search parameters (2-kilometre radius, 6-month sales window) yielded only two genuinely comparable sales that align with the specific 5-bedroom, 3-bathroom accommodation profile, functional layout, and allotment scale.

9 Helen Court, Narre Warren features a distinct dual-living extension that effectively provides two complete, self-contained residential living zones under one roof—comprising dual kitchens, two separate laundry facilities, and multiple living spaces. Other properties sold in the localized area within the statutory period either possess significantly larger land allotments or offer lower overall utility (e.g., standard single-family configurations with only 2 bathrooms or 4

bedrooms).

Forcing a third, non-comparable property with inferior accommodation or mismatched land area into the comparative analysis would distort the baseline valuation. Consequently, the estate agent reasonably believes that fewer than three directly comparable properties exist within the statutory timeframe and area, and the estimated selling price has been determined using the two directly matched dual-living comparables alongside broader market indicators for multi-generational homes.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
