Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[Insert N/A if there were three comparable properties]

No matching sales were returned by the Ignite search for four-bedroom houses within 5km of 23 Emmett Street, Ouyen, using a \$200,000–\$225,000 price filter. The subject property comprises four bedrooms, one bathroom and a single carport on approximately 995m², with scope for future improvements.

The previously identified sale at 56–58 Rowe Street is close in price but has three bedrooms and a larger allotment. Other recent four-bedroom sales identified differ in renovation standard, accommodation configuration, land size or shedding, reducing their direct comparability.

No closely matched sales were identified under the applied search filters. This does not establish that no suitable comparables exist outside those filters.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
