## Reason there are fewer than three comparable properties

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

The recent price adjustment for the above property was prompted by a review of recent sales activity within the Harcrest Estate.
In particular, the following properties have recently sold:
61 Verdant – Sold for $1,250,000
28 Viewmont – Sold for $1,200,000
70 Aspect – Sold for $1,235,000
These sales provided an indication of current market conditions, buyer demand and property values within the immediate estate, which prompted the agent to reassess the property's estimated selling price.

However, while these sales were considered as part of the broader market assessment, they were not selected as direct comparable sales due to differences in the properties' physical characteristics.
All three properties are double-storey residences, whereas the subject property is single-storey. This difference in dwelling configuration may affect internal floor area, accommodation, layout, functionality and overall buyer appeal.
As such, the agent considered these sales relevant to understanding recent market activity and pricing trends within Harcrest Estate, but did not consider them sufficiently similar to rely upon as the most comparable sales for the Property Price Statement.
The price adjustment was therefore informed by recent market evidence, while recognising the differences between the subject property and the properties sold.
