Reason there are fewer than three comparable properties

I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

At the time of preparing the Property Price Statement for Lots 1, 37 Main Road, Lancefield (a 611m² block of land in a boutique development comprising five residential allotments ranging from approximately 547sqm to 682sqm) land holdings of this size within the Lancefield township are relatively scarce, with most available vacant land consisting of either smaller established infill allotments or significantly larger semi-rural/lifestyle holdings on the township fringe.

A review of recent sales evidence within Lancefield and the surrounding 5km radius identified limited directly comparable vacant land transactions in terms of size, configuration and subdivision context. The majority of available sales evidence differs materially from the subject lots, either comprising smaller infill parcels or larger acreage-style holdings that do not reflect the same development profile as 37 Main Road.

The most comparable available sale identified is 23 Barrett Street, Lancefield, which comprised a 568sqm allotment and sold for \$325,000. While this sale is the closest in size and location, it represents a single established infill transaction and does not fully reflect the boutique multi-lot subdivision nature of the subject property.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.

Sale price	\$350,000
