Reason there are fewer than three comparable properties

☒ **I, the agent or agent's representative for the property offered for sale, did not take the sale price of three comparable properties into account in determining the estimated selling price for the property because I believe that fewer than three comparable properties were sold within the relevant period.**

Explain the reason the agent or agent's representative believes that fewer than three comparable properties:

[*Insert N/A if there were three comparable properties*]

Property overview: Corner allotment with dual street frontage. The existing dwelling is in liveable condition and suits immediate occupation, renting out, or renovation.

Rental potential: The dwelling may suit leasing, subject to compliance checks. These include Victoria's rental minimum standards and the required gas, electrical and smoke alarm safety checks. Prospective purchasers intending to lease should make their own enquiries.

Development potential: The site may offer subdivision potential, subject to council consent (STCA). Purchasers should make their own enquiries with the relevant council regarding zoning, overlays and planning requirements.

Comparable sales: No, directly comparable properties have sold within the required distance and timeframe. This is because corner allotments with similar land size and development potential are scarce in the area. The indicative selling price reflects the agent's assessment of recent sales of nearby properties, adjusted for land size, corner position, dwelling condition and potential for future development.

Sale outcome

The sale price of the property must be included in this section within seven days after the unconditional sale of the property unless an application for an exemption is pending or an exemption has been granted.
