

A **better loan.** A better way. Using a mortgage broker.

Nearly half of Australians who take out property finance use a broker to do the hard work for them.

Finding the perfect loan can feel like a maze. And with thousands of different loans available, from dozens of providers, it's little wonder. Even knowing where to start can be overwhelming.

How it works

A mortgage broker takes an impartial view of hundreds of loans – from big name financial institutions you know and trust, to small banks and credit unions – and works with you to match the right loan to your goals and financial position.

A good broker will:

- Assess your needs and financial position and recommend competitive loan options
- Take the time to explain the full process, from application to settlement
- Do most of the leg work, acting as an intermediary and negotiating with the lender
- Complete mountains of paperwork, leaving you to simply review and add your signature
- Liaise with key parties, including solicitors and real estate agents (and you!) to ensure a smooth settlement
- Perform ongoing reviews for you after settlement to make sure you are always on a competitive loan.
