

The Pier • 19 Hickson Road • Walsh Bay

The Pier was completed in 2003 by Mirvac and Transfield as part of the Walsh Bay Precinct project.

The open plan layouts are suited to today's modern lifestyle combined with light and contemporary interiors.

Individual apartments are accessible from one of six lobbies or from one of the private boardwalks that run parallel on either side of The Pier. The boardwalk is only accessible by Pier residents and owners in Walsh Bay who moor a boat in the private marina.

One of my favourite precincts in Sydney this is a stunning place to live and work which has all the benefits and amenities of a big city on your door step although away from the hustle and bustle, just listen to the water. Plus you can immerse yourself in the culture on your doorstep such as Sydney Dance and Theatre Companies across the road.
