

## MARKET REPORT

Tuesday's Market saw an easier trend across the whole market as has been the case with all market centres across the state.

The Western and Southern areas of NSW are in desperate need of a decent fall of rain and this is driving the recent decline in cattle values as re stockers "sit on their hands" to see what the weather brings.

251 cattle were penned for sale with the large majority of the yarding consisting of late weaners and yearling cattle suitable for both re stockers and processors.

Veal Calves:	256.2 – 338.2
Heavy Steers:	304.2 – 354.2
Heavy Heifers:	120.2 – 318.2
Cows:	60.0 – 208.2
Bulls:	190.0 – 224.2
Cows and Calves:	\$920.00 - \$1240.00

Ray White Rural of Kempsey would like to remind producers that the Annual Female Sale is to be held on Saturday the 26<sup>th</sup> of August.

After last year's strong sale, this year is set to a very good sale as well.

An ideal opportunity to showcase the region as a producer of top quality Replacement Females. With over 200 head already booked, this is a sale to be part of.

Ray White Rural of Kempsey would like to take this opportunity to thank all Vendors, Buyers and Underbidders for their continued support.

We are the alternative you asked for.
