

Dalby Cattle Sale Market Report

Wednesday 16th June 2021

Ray White Rural Sale Results

This week's sale saw numbers increase for a total yarding of 2848hd. Today was one of the largest crowds we have seen for a while in Dalby, however we still had the absence of a major export buyer. With the large panel of buyers the light weight feeders through to the weaner classes saw a price increase by as much as 20-30c/kg. Heavy cows topped at 307c/kg, heavy bulls improved this week making 349c/kg. Weaner steers today reached a top 678c/kg, and weaner heifers topped at 594c/kg.
