What is depreciation?

When a building gets older and items within it wear out, they depreciate in value. Investors are entitled to claim a tax deduction for this wear and tear every financial year.

Why is depreciation important?

You can claim thousands of dollars in depreciation deductions each financial year, reducing your taxable income and improving your cash flow.

Can my accountant calculate depreciation?

No, specialist Quantity Surveyors like BMT work with your accountant. Quantity Surveyors are one of the few professionals recognised by the Australian Taxation Office as having the skills to estimate construction costs for depreciation purposes.
